

Price List for Storyboards

I offer several different levels of storyboards for all budgets and projects. Below you'll see an example of each level. The more detailed the storyboard the longer the turnaround time will be, as well the price will increase accordingly. Please feel free to contact me if you have any questions.

Thumbnails: \$20 per frame

Great for smaller budget projects. Not overly detailed, but this is the quickest and least expensive option.

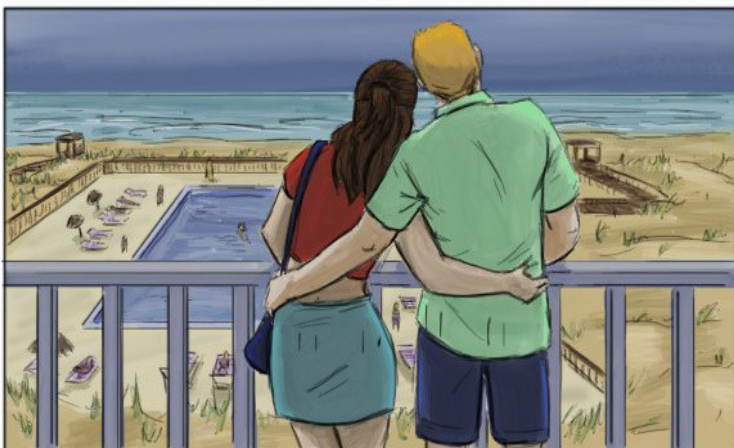

Full Size, B/W: \$35 per frame

Cleaner and more detailed than thumbnails, but can still be done quite quickly.

Full Size, Gray-scale: \$50 per frame

The gray-scale option has more depth than black/white version and gives you a more complete and polished overall feel.

Full Size, Color: \$75 per frame

Fully rendered images. This version requires a longer preparation time and will cost a bit more, but the final result is the most dynamic out of all of the different versions.
